ABOUT THE SHOW:

Mexican Canadian artist Ashley King (she/her) is a legally blind performer and writer. Her piece, *Static: A Party Girl's Memoirs* is a coming-of-age story based on true events, written and performed by Ashley, a young woman whose life is all about booze, boys, and late-night parties. But when she wakes up blind while on holiday, she'll have to face her darkest depths of grieving a new life she didn't choose or want. Not your typical inspiration story, *Static* offers a poignant and humorous take on the struggles and triumphs of a young woman learning to navigate the world without sight. With moments of laughter and tears, this dark comedy explores whether everything happens for a reason and if joy can really be found in unexpected places.

Key responsibilities include:

- Assisting the Stage Manager with rehearsals and running of production
- Offering some additional accessibility support for our actor with visual impairment
 - Orientation and sighted guide training will be offered by the producing companies
